PCT/JP2004/012904

Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

Claim 2 is not fully supported by the description.
With regard to claim 2, the description does not clearly state the way in which pads are brought into contact with one another via bumps, and it is unclear whether adjoining pads are merely brought into contact with each other by bumps.
